International nuclear physics conference

Göteborg, Sweden,
27 June – 2 July 2004

The 22nd triennial international nuclear physics conference will take place from 27 June to 2 July in Göteborg, Sweden.

The mornings will consist of plenary sessions, while the afternoons will be devoted to six parallel sessions on the following topics:

- nuclei and the standard model;
- subnucleon degrees of freedom;
- towards exotic nuclei;
- nucleus-nucleus collisions;
- nuclear astrophysics;

- applications and technical developments.

The conference programme is designed to attract participants ranging from established world leading scientists to PhD students active within theory, experiment and applications.

ICSTEST-E 2004 conference, Spain

Bilbao, Spain,
10-11 November 2004

ICSTEST-E 2004, an international conference on software testing, embedded software, safety-critical and real time systems will be held on 10 and 11 November in Bilbao, Spain.

The event will provide a platform for leading industry experts and researchers to exchange experience on methodologies and tools for quality assurance.

Topics for the ICSTEST-E 2004 include:

- transportation and safety-critical systems;
- testing automation of embedded systems;
- quality management, unit and integration testing;
- methodologies for management and planning in projects;

- industry experiences;
- verification and validation;
- techniques for real time systems;
- methodologies and tools for requirement management;
- advanced tools for the support and automation of processes;
- static and dynamic analysis;
- configuration management;
- reviews and inspections, and norms and standards.

Climate change conference, Brussels

Brussels, Belgium, 11-12 May 2004

The second Brussels Climate Change Conference will be held in Brussels on 11 and 12 May.

The aim of the conference is to discuss recent EU and international developments, and to review recent EU initiatives such as the implementation of the EU emissions trading scheme and its potential impacts on the industrial and power sector. The conference will also examine the approaches and policies of the EU's main trading partners such as the US, Japan, Canada, Russia and Australia.
